

WEST INDIES LIMITED

Cane Garden, St. Thomas, Barbados

Tel : (246) 425-0371 Fax : (246) 425-2941 E-Mail : brc@caribsurf.com

INTRODUCTION

With an initial staff of 14, BRC West Indies Limited started manufacturing BRC Welded Wire Mesh for concrete reinforcement in February of 1980. The company has since expanded its product range to include Weldmesh (galvanized and plain), Brickforce, Reinforcing Steel Bars (deformed high yield and smooth mild steel), three profiles of steel Roof Cladding and Hurricane Straps.

BRC has proven itself to be one of the leading companies in the field of construction steel, with a reputation for high quality products and services. Quality control procedures are constantly monitored, both in house and by the Barbados National Standards Institute (BNSI), to ensure continued compliance with the relevant standards.

BRC West Indies Limited was the first company to be granted a licence to use the BNSI certification mark for the production of consistently high quality products. In 1995, it was one of three companies in Barbados to be approved by the Buy Caribbean National Committee to use its logo on BRC Welded Wiremesh, Rebars and Roll-formed products, certifying the manufacture of authentic Caribbean products.

BRC West Indies Limited, endeavours to ensure that all advice, recommendations or information it gives is accurate but no liability or responsibility of any kind (including liability for negligence) is accepted by the company, its servants or agents in this respect.
